

Acquisition of lithium iron battery companies

Who bought Lithium Werks?

Image: Flickr. Reliance New Energy Limited, part of the massive Indian conglomerate Reliance Industries, has acquired LFP battery manufacturer Lithium Werks for US\$61 million two months after buying a sodium-ion battery producer. Reliance has agreed to buy all of the assets of Lithium Werks which produces lithium iron phosphate (LFP) batteries.

Why did Reliance New Energy acquire Lithium Werks?

Reliance New Energy Limited acquires assets of Lithium Werks. An integrated portfolio of high-performance LFP solutions with a unique history of 30+ years of battery experience and innovation. To further strengthen Reliance's cell chemistry technology leadership and accelerate setting up of multi gigawatt hour scale battery manufacturing in India.

Why did Advik acquire a lithium-ion battery company?

Managed through its UK subsidiary Advik Technologies, the acquisition integrates cutting-edge lithium-ion battery technology into its portfolio. Aditya Bhartia, MD, Advik expressed excitement about the acquisition, emphasising its contribution to a sustainable future powered by clean energy.

What does the Lithium Werks deal mean for Reliance?

It follows hot on the heels from Reliance's acquisition of sodium-ion battery technology firm Faradion for an enterprise value of US\$135 million. The Lithium Werks deal is being presented as an acquisition of assets rather than the company itself through a share purchase, though it appears to mean effectively the same thing.

What makes Lithium Werks a great company?

"It's a very complimentary fit with talented people, innovative technologies, world class lithium battery solutions and leading OEM customers." "This is the first acquisition of Lithium Werks and it immediately provides the company with a strong global presence", said Knut H. Nylaende, chairman and co-founder.

What assets does Lithium Werks have?

The assets include the entire patent portfolio of Lithium Werks, manufacturing facilities in China, key business contracts and hiring of existing employees as a going concern.

The company also signed a non-binding agreement in April with battery materials recycler Lab 4 to build a recycling plant for end-of-life electric vehicle (EV) and lithium ...

In this piece, we highlight four key players in the lithium and battery space. It serves as a follow-up to our 2020 piece by the same name. -- BYD: Vertically integrated battery and EV manufacturer with top market

Acquisition of lithium iron battery companies

share in both segments -- Arcadium Lithium: New lithium major following the merger between Allkem and Livent

The combination of Lithium Werks with Reliance's recently announced acquisition of UK based sodium-ion battery technology Faradion Limited, strengthens Reliance's technology portfolio and allows Reliance to ...
