

How to show battery percentage in Windows 11?

On Windows 11, you can now show battery percentage in the Taskbar with a new setting available on the "Power & battery" page from the Settings app, and in this guide, I'll outline the steps on how to enable the feature.

How do I Check my PC's battery status in Windows 11?

By default, you can always check your PC's battery status and more when you hover over the battery icon in the taskbar system tray. Starting with Windows 11 build 26120.3000 (Dev), Microsoft is introducing new and improved battery icons in Windows 11. These icons have been designed to communicate battery status of your PC with just a quick glance.

How do I know if my laptop has a battery?

Go to System > Power & battery. Scroll down to the Battery percentage section (under the "Battery" category). Toggle on Battery percentage to show the percentage next to the battery icon. This will show the percentage next to the battery icon in the taskbar, but it might still not be very visible in tablet mode (when the taskbar is reduced).

Does Windows 11 display battery percentage on the taskbar?

To address the issue of displaying the battery percentage on the taskbar and reduced taskbar in Windows 11, there are several methods and tools available, although it appears that Windows 11 does not natively support this feature directly on the taskbar by default. Open the Settings menu by clicking the Start button and selecting Settings.

How do I show the battery percentage on my laptop?

If you're using a laptop, follow the instructions below to show the battery percentage on the taskbar: Navigate to the Start menu, then to Settings. Select Personalization, then Taskbar.
