

Rent a rooftop for solar power generation and pay first

How much does it cost to install solar panels on a roof?

1. A range of companies (HomeSun, A Shade Greener) will install free solar panels onto your roof at no cost to yourself. Typically an installation can cost something in the region of £15,000. 2. The panels, installation, maintenance and insurance all come free as part of the package. You don't have to pay for a thing. 3.

Are solar panels paying rent for your roof?

Technically, they're not paying rent for your roof, because you'll get the benefit of powering your home using solar power instead of grid electricity. They'll make money from the electricity you don't use. All excess electricity generated is sold back to the grid via the Smart Export Guarantee (SEG) scheme.

How can you make money from a solar roof?

Solar rooftop leasing is one of the three basic ways you can make money from your rooftop with solar energy. The other two involve owning and operating solar panels on your own roof and joint venturing with a developer who will install the solar panels and share the income with you.

What is a rent a roof scheme?

The Rent-a-Roof scheme lets people who can't otherwise afford solar panels gain access to them, through installers who will set up solar panels on roofs for reduced prices. Installers can then sell any excess electricity generated back to the grid.

Should you rent or install solar panels on your property?

For a limited time, if you could not afford the upfront costs to install solar panels on your property, some companies would essentially rent roof spaces, install solar panels for free and absorb the costs of maintenance. In return, homeowners would benefit from the Feed-in-Tariff (FiT) payments.

Can you get free solar panels on your roof?

Thanks to rising energy prices, more and more people are looking to invest in solar energy as a way of saving money and reducing their energy bills, making the prospect of free solar all the more tempting. Known as the "rent-a-roof" scheme, a growing number of companies are offering to fit and maintain solar panels on your roof for free.
