

# The price of installing batteries in Eboh meters

How much does a battery storage system cost?

What's the cost of a battery storage system? Depending on the model and the size of the system, battery storage systems normally cost between £2000-£3500 to install. It's a lot of money and you'll want to make sure your system is worth it and that it will eventually pay for itself in savings to your energy bills.

Should I charge my EV from my home battery?

The EV will usually have a bigger battery capacity than the home battery and so if you charge your EV from your home battery it will drain quickly. The best solution is to install an EV charger that syncs with your home battery so they work seamlessly together.

Should I charge my home battery concurrently with my EV?

Charging your home battery concurrently with your EV during off-peak hours is the most cost-effective strategy, as it allows you to take full advantage of lower electricity rates. All home battery systems installed by Heatable are equipped with smart technology, which includes user-friendly time control settings.

Does 0% VAT apply to retrofitted solar batteries?

Starting from February 1, 2024, the UK government has extended the 0% VAT policy to include retrofitted residential solar batteries. This exemption now applies to all residential battery storage systems, whether they are installed as new, retrofitted, or in conjunction with a solar panel system.

How much will electricity cost in 20 years?

If electricity prices keep rising at this rate, then in 20 years' time, the real cost of electricity will be 42p per kWh. The average cost over the next 20 years will be 28p per kWh. If electricity prices rise by 7.5% per annum in real terms, the average cost over the next 20 years will be 38p per kWh.

Do I need a smart meter?

Additionally, you will need a smart meter installed at your property. Standard meters are not capable of accurately tracking energy flows in both directions--essential for managing both your consumption and any electricity you send back to the grid.
