

# The tax rate for selling photovoltaic batteries is

Do solar batteries have a 0% VAT rate?

If you're buying a standalone solar battery, you'll also benefit from the 0% VAT rate. In February 2024, the government added storage batteries to the list of green products that enjoy a 0% VAT rate - and it makes no difference whether you get solar panels too or not.

Are solar batteries VAT free?

Whether you're buying a standalone solar battery or getting a battery installed with a solar panel system, you'll benefit from the 0% VAT rate. This rule changed in February 2024 to include standalone storage batteries at the 0% VAT, regardless of whether you're getting solar panels at the same time.

Is the VAT rate down to zero for solar products?

The government announced cutting VAT from five percent to zero upon installing energy-efficient systems such as solar panels, heating pumps from April 2022. I wonder if the VAT rate is down to zero for solar products as well? many thanks. Hi. The Zero rating for energy saving materials involves the supply/installation of energy saving goods.

Are solar panels taxable?

In February 2024, the government added storage batteries to the list of green products that enjoy a 0% VAT rate - and it makes no difference whether you get solar panels too or not. This could save you hundreds of pounds, though you'll still spend thousands in upfront costs. Domestic solar export revenues are usually not taxable.

What is the VAT rate for solar installations?

Previously, the VAT rate for solar installations was either 5% or 20%, depending on a couple of factors. That means the VAT rate cut could save you hundreds or even thousands of pounds.

What is HMRC's solar VAT rate?

HMRC is proposing a VAT rate of 20% for solar installations where the cost of materials is above 60% of total install cost. This is set to hit combined solar and battery storage installations, collective purchase schemes and higher-end solar and smart energy products.

The government draft of the Annual Tax Act 2022 (BR-Drucks. (Bundesrat Printed Matter) 457/22 of 16 September 2022) contains a new paragraph 3 in sec. 12 of the German VAT Act provides, inter alia, for a zero VAT rate which applies to the supply and installation of solar modules if the gross output of the photovoltaic system (PV system) does not exceed 30 kilowatts (peak).
