By using strong grids and specially designed active material, the DC series battery offers 30% more cyclic life than the standby series. It is suitable for solar energy systems, marine and RV etc. Ritar DC12-65 Nominal voltage - 12V ...

This battery is waterproof. The AGM principle relies on the use of blotters between the lead plates in which the acid is soaked. The AGM technology enables you to have a more efficient battery for a wide range of applications. Please charge the battery once received and before the first use to ensure the best possible performance.
