Buy 24V Rechargeable Battery Packs and get the best deals at the lowest prices on eBay! Great Savings & Free Delivery / Collection on many items

The battery is a 60v 20ah battery. When fully charged the throttle displays 67 volts and It of course decreases as I keep going. I ride the bike for around 24 miles and then the display eventually goes down to exactly 50 volts and then in goes to a 49/48 shortly after and the motor shuts off and the voltages drop to 0 and the bike automatically shuts down.
