What Are Greenworks 80V Battery Packs and Their Uses? Greenworks 80V battery packs are powerful rechargeable batteries designed for use with Greenworks outdoor power tools. They provide extended runtime and efficient performance for tasks such as lawn maintenance and gardening. Power Output: 80V voltage for high-performance tools.

The nominal voltage is the same for any "80v" or "82v" battery, but they use those different numbers for marketing. Snapper XD is 82v but those tools can be modified to accept 80v batteries afaik. It comes down to the grooves in the battery case. I made a post here a while back about modifying some used Kobalt tools to accept my GW batteries.
