Solar energy offers interesting prospects in Haiti, by offering energy self-sufficiency to the most isolated cities, in the absence of a power grid. The country's location in the tropics gives it very strong solar energy potential. It is believed solar energy will play a fundamental role in access to electricity over the next 10 to 15 years.

The main container terminal is Caribbean Port Services (CPS) and is privately owned and operated. CPS is a merger of three container terminals that was finalized in 2016. ...
