

Can a battery pack be rebuilt?

Get your battery pack rebuilt with County Battery Services pack rebuilding service. Whether it is Ni-Cd, Ni-Mh or Lithium, we can repair and improve your battery packs to an upgraded standard by exchanging your internal cells to brand new quality battery cells of the same or higher capacity.

Can a battery pack be repaired?

Note: Repairs work best if the battery pack has recently failed. If it failed several months/years ago and been left in a discharged state, especially in an unheated outbuilding during the winter months, it's unlikely it will repair well and may require re-celling.

How do refurbished batteries work?

How we do it: We exchange all your battery's internal cell with brand new ones. A-grade battery cells used to recell your battery pack. Your refurbished batteries will look as good as brand new and will work in exactly the same way as it used to. We recell, refurb, and repair Lithium (Li-Ion), Ni-Mh and Ni-Cd battery packs.
