With a 512 watt-hour capacity and 1,000-watt output, the DJI Power 500 all-scenario portable power station can serve as an essential backup power source during ...

Hey all, I stumbled onto the thread, looking for data on power consumption for the Pi 5. I've been building a portable power pack unit in the hopes of making a raspberry pi based cyberdeck. Build conditions were rugged, waterproof, variable source power supply, possible external sensor capability for weather and GPS, and information catalogs.
