

What are Waterproof connectors?

Waterproof connectors in Underground Residential Distribution (URD) are fully waterproof,insulated connectors suitable for installation in a pit. They enable underground services to be connected quickly and safely by one person using a ratchet spanner. These connectors have been rigorously tested and avoid the need for stripping,compression tooling or heat shrinking.

How strong is a battery connector?

Battery connector ends are constructed with spring steel,ensuring excellent impact and vibration resistance. Rated for 12V DC at 50A maximum,with an insulation resistance of DC 500V 100M ohmminimum. Dielectric strength tested at AC 1000V for 1 minute. Operating temperature range from 0? to 60?.

What is a battery connector?

Battery connectors have colour-coded housings and mechanical keys to prevent two different voltage colour-coded housings from mating. The battery terminals are designed to fit either positive or negative battery posts. They're end-to-end stackable with contacts made from various metals and they offer a high cycle life.

Are SuperSeal connectors waterproof?

Superseal 1.5 Series IP67waterproof connectors for multiple connections in harsh environments. Suitable for 0.5 - 1.5mm&#178; cable and available in 1 - 6 ways. Supplied as a male/female pair with all seals and terminals included. For more information on our 1.5 Series Superseal Connectors check out our YouTube Video

Why should you choose a silver plated battery connector?

Silver-plated copper terminals enhance conductivity,enabling safe and efficient charging. Secure Contact: Both ends of these battery connectors are forged from spring steel,ensuring outstanding impact and vibration resistance for the batteries.

What are modular battery contacts?

They're made with a high-performance and temperature-rated thermoplastic housing,durable blade terminals and can be manufactured with a variety of metal plating finishes,such as gold-plated nickel contacts. Modular battery contacts are interconnection devices found in portable devices.
