Warranty and Repairs Look for all-in-one LED solar street lights that come with a solid warranty and responsive customer service to address any potential issues. A good warranty can save you money on repairs or replacements. Should You Buy Used? Buying used all-in-one LED solar street lights can be risky due to potential wear and diminished battery life.

Lighting in house is all LED, and all 12VDC, because the inverter is not 100% efficient (lighting in shop is all incandescent, because if genset is running I do not have to save power). My favorite LED bulbs are MR-16 type that I find on DHgate or T-Mart, and use in thrift-store hi-intensity lights made for MR-16 halogen bulbs.

After extensive testing, I've discovered the best solar street light LED options on the market that can truly transform urban spaces while keeping them eco-friendly and secure. We've tested more than 20 solar street light led to determine that the Solar Lights Outdoor is ...

I see countless ads and examples of solar "street lights", but when you look at the claimed wattages and you see the size of the battery and the panel, there's no way this ties up. I cannot see a so-called 40 Watt (or more) light being able to run for 8h and then have enough time to recharge for the next night. Sure, some have PIRs etc and options to run at much ...
