

It is not clear if some of these funds will go towards the Saudi Arabian project. Jinko Power was operating 5.7 gigawatts of solar power stations worldwide as of the end of last year, with 3.6 GW of which are self-owned. ...

Chinese energy projects developer POWERCHINA has launched what should easily be the world's largest ever solar module and solar inverter procurement call as it seeks 51 GW capacity for each of the 2 ...

China's National Energy Administration (NEA) has released new draft rules to reshape the distributed-generation solar market. ... The draft guidelines are designed to reshape the country's ...

Damodar Valley Corp. (DVC) has started accepting bids to set up a 234 MW (AC) grid-tied floating PV plant on its Maithon Dam Reservoir in Jharkhand, India. Bidding closes on Jan. 7.

He also says Masdar is open to considering co-investors or codevelopers in the project "if they will complement" its capability to deliver the project. Masdar has also engaged several banks and lenders, which have been conducting due diligence on the project, particularly on the selected battery technology.

China Power Construction Corp. (PowerChina) says it has concluded the largest procurement tender in solar industry history, involving 51 GW of PV modules and 51 GW of inverters. The tender results ...

The floating solar PV project is located in the Shandong Province of China. Image: CHN Energy. State-owned China Energy Investment Corporation (CHN Energy) has ...

Huasun, a Chinese solar technology company specialising in the development and production of advanced heterojunction (HJT) solar cells and modules, has secured two significant bids with Power Construction Corporation of China (PowerChina), totalling 840 MWp of n-type heterojunction (HJT) solar modules.

China Solar PV News Snippets: New HJT Cell Efficiency Record By Trinasolar & More. ... CPIA raises concerns over low-cost bids in Xinjiang solar project. Trinasolar's National Key Laboratory of Photovoltaic Science and Technology has achieved a new world record 27.08% efficiency for a HJT solar cell. (Illustrative Photo; Photo Credit: IM ...

The tariff for Myanmar's only existing large-scale solar project at Minbu, Magway Region is \$0.1275, and the price agreed upon for Convalt's as-yet unbuilt 300MW Mandalay solar project is the same. This price was settled ...

More than 130 bids were submitted for the projects, worth a combined capacity of 280MW. A Yingli

spokesman says the projects are likely to be developed jointly with utility companies. "Yingli will partner with local utility firms to develop the projects and our role is to provide our expertise in the area of solar PV," the spokesman tells Recharge.

By December 2024, Huasun delivered 1,386 pieces of V-Ocean HJT solar modules for Phase 1 (800 MW) of Power Construction Corporation of China's offshore PV ...

In what is described as the largest energy storage procurement in China's history, Power Construction Corporation of China (PowerChina) is targeting an unprecedented cumulative storage capacity of 16 GWh. The bids ...

With the solar project pipeline growing around the world, it can be challenging to scour the range of websites and publications listing solar tenders to find suitable projects ...

Chinese energy developer Shenergy has announced the bidding results for its 2.4 GW solar module procurement project for a 2 GW solar power project located in Tacheng and Buxel Counties, Xinjiang. The procurement involves n-type bifacial double-glass modules with a power output of 620 Wp and above, split into 2 segments of 1.2 GW each.

Unexpected Chinese bids. The result had been widely anticipated since it emerged Chinese companies had submitted the majority of proposals received by the 17 July deadline, but it is understood this left even ...
