

cosmetic cap stock cap stock aluminum circle stock acp stock tread plate specular sheet cabinet sheet lighting component stock capacitor shell stock. all tempers. 0.2--4.5. 1070 1100 foil and foil stock. capacitor foil,household foil, ...

The invention discloses a capacitor aluminum shell film-coated paint and a preparation method thereof, wherein the paint is prepared from the following raw materials in percentage by mass: 35-60% of hydroxyl polyurethane resin, 10-30% of carboxyl polyester resin, 2-5% of nano titanium dioxide, 1.4-5.0% of auxiliary agent, 4-6% of film-forming auxiliary agent, 0.2-0.5% of coupling ...

The invention discloses a high-adhesion capacitor aluminum shell coating. The coating is prepared from polyamide resin, glycerol, polymethyl methacrylate, organic bentonite, a modified styrene acrylic emulsion, silica sol, potassium metasilicate, olive oil, zinc stearate, rice husk ash and bagasse extract. A film formed after spraying the prepared capacitor aluminum shell ...

Nanodielectric films were fabricated by embedding highly ferroelectric  $\beta$ -phase polyvinylidene fluoride (PVDF) polymer with high electrical conductivity alumina coated aluminum nanoparticles. Al-Al<sub>2</sub>O<sub>3</sub> core-shell nanoparticles were successfully synthesized through a simple, cost effective, and scalable blending procedure in PVDF to yield high performance energy ...

The invention discloses an environmentally-friendly laminating coating for an aluminum capacitor shell and a preparation method thereof. The environmentally-friendly laminating coating is mainly obtained by mixing and stirring a composition A and a composition B in composition raw materials in part by weight, wherein the composition A consists of polyethylene resin, ketone, ...

In order to overcome the defects and deficiencies in the prior art, the utility model aims to provide a photochromic anti-counterfeiting coated aluminum shell for a capacitor.

The invention discloses an anti-ageing coating of an aluminium shell of a capacitor. The anti-ageing coating is prepared from the following components: polyamide resin, polyvinyl alcohol, polymethyl methacrylate, bentonite, tributyl phosphate, silicone oil, aluminium silicate, olive oil, sodium carboxymethylcellulose, radix phytolaccae juice and broomcorn straw extracts.

The utility model discloses an aluminum shell for condenser, which comprises a housin, the casing includes top layer, middle level and substrate layer, the bottom and the middle level fixed connection on top layer, medial bottom and substrate layer fixed connection, the top layer includes insulating layer, anti-corrosion coating and anti-corrosion coating, the bottom and the ...

The high adhesion capacitor aluminum shell film coating can safe and effectively protect a capacitor, greatly prolong a capacitor service life and is conducive to development of a ...

Anodizing would work for very low voltage levels except it is such a thin coat, that any scratch or pressure could potentially damage the thin shell and allow current to flow ie voltage breakdown. And if you have an AC voltage, you may actually develop capacitive reactance. There are many options - what is best depends on the application requirements.

No Dent Coating Black Aluminum Can for Solid State Capacitor (J6.3X8.9), Find Details and Price about Aluminum Shell Electrolytic Capacitors Can from No Dent Coating Black Aluminum Can for Solid State Capacitor (J6.3X8.9) - Ninghai County Chalu Jinbaili Daily Necessities Store

Communication equipment: In the field of communication equipment, such as base stations, communication terminals, etc., the capacitor shell is made of aluminum and aluminum alloy strips to provide a lightweight, high-strength ...

INTRODUCTION : ML series single-phase dual-value capacitor aluminum shell motor adopts the latest international design. Developed from high-quality materials in accordance with relevant IEC standards, it has a series of advantages such as good performance, reliable and safe operation, beautiful appearance, easy maintenance, low noise, micro vibration, light weight, simple ...

The invention provides an aluminum casing for an electrolytic capacitor. The aluminum casing comprises an aluminum casing body (2), wherein an insulating film (1) is arranged on the inner wall of the aluminum casing body. In the electrolytic capacitor, the insulating film is arranged on the inner wall of the aluminum casing, and the inner wall of the aluminum casing body can be ...

The invention discloses a kind of organic-inorganic aluminium shell of capacitor high-quality coating paint, including component A and component B, component A is made up of following material: Organosilicon grafted propylene acid resin, polyflon, polyamide, Merlon, glass dust, pyromellitic acid anhydride, modified micaceous powder, sodium pyrophosphate, acetone, ...

China Aluminium Shells wholesale - Select 2024 high quality Aluminium Shells products in best price from certified Chinese Aluminium Steel manufacturers, Aluminium Equipment suppliers, wholesalers and factory on Made-in-China
