

(WHZ<-3) of these two options in Timor-Leste. We conducted a secondary analysis of data from the 2020 national Timor-Leste Food and Nutrition Survey. We tested the accuracy of various MUAC cut-offs, and predefined case definitions in five age groups (0-5 months, 6-23 months, 24-59 months, 6-59 months, and 0-59 months).

In the multi-layer ceramic capacitor (MLCC) manufacturing process, dielectric is stretched into paste form, pressed, and baked in a firing furnace. The firing process requires the introduction and addition of atmospheric gases such as ...

Twenty-one-year-old Lita*, a resident of Atauro island in Timor Leste, had been suffering from cough and breathlessness for the past one month. She was screened at the Barrio Pitte Clinic in ...

Timor-Leste imports Electric capacitors, fixed, nes primarily from: Turkey (\$2.14k), Australia (\$2.13k), Portugal (\$696), Indonesia (\$272), and Singapore (\$233).

Dili, November 4: Timor-Leste notified 6171 tuberculosis (TB) cases in 2023, the highest on record, according to the World Health Organization's (WHO) Global Tuberculosis Report 2024, released on October 29. While this increase may initially appear concerning, it reflects the impact of intensified surveillance and enhanced diagnostic systems implemented in one of the world's ...

Timor-Leste Primary Energy Consumption per Capita data is updated yearly, averaging 1,109.922 kWh/Person (Median) from Dec 2003 to 2021, with 19 observations. The data reached an all-time high of 1,840.639 kWh/Person in 2014 and a record low of 754.400 ...

Additionally, Timor-Leste has been a consistent supporter of Chinese initiatives like the BRI and the Asian Infrastructure Investment Bank (AIIB), while also holding a firm stance against Taiwan's independence. Beyond political ...

Dili, 8 November 2022- Timor-Leste has shown a reduction in the incidence of tuberculosis (TB) in 2021, according to the World Health Organization's newly released Global TB report. The TB incidence in the country had been stagnant at 498 per 100,000 population for the past many years, but in 2021, the incidence showed a 2.4% decline to 486 per 100,000. The report also ...

Timor-Leste imports Electric capacitors, fixed, ceramic, multilayer, primarily from: Indonesia (\$32). The fastest growing import markets in Electric capacitors, fixed, ceramic, multilayer, for Timor ...

Study design and source of data. This was a secondary data analysis based on the 2020 Timor-Leste Food and

Nutrition Survey (TLFNS), a nationally representative cross-sectional survey which was conducted between 4 June and 18 September 2020 using 2-stage cluster sampling, in which the sample was stratified by municipality [].The sample size, which ...

Timor- Leste. METHODS AND ANALYSIS Study design The NTPS is a national cross-sectional survey which will be conducted in Timor-Leste between September 2023 and December 2023. The survey is led by coprincipal investigators from the Timor- Leste Ministr y of Health and Menzies School of Health Research. The study design and

This research proposes a low-cost solution for detecting road potholes image by using convolutional neural network (CNN). Our model is trained entirely on the image which collected from several different places and has variation such as in wet, dry and shady conditions.

A Deep Learning-Based Approach for Road Pothole Detection in Timor Leste. Pages 279-284. Previous Chapter Next Chapter. ABSTRACT. This research proposes a low-cost solution for detecting road potholes image by using convolutional neural network (CNN). Our model is trained entirely on the image which collected from several different places and ...

Improving case-detection of severe wasting among under-five-year-old children in Timor Leste: A secondary analysis of data from the 2020 national cross-sectional food and nutrition survey ... of these two options in Timor-Leste. We conducted a secondary analysis of data from the 2020 national Timor-Leste Food and Nutrition Survey. We tested the ...

During the past 10 years, Timor-Leste has concentrated all its efforts on infrastructure development. However, it has not achieved enough due to unexpected ground deformation in mountainous areas that is seriously affecting road constructions, etc. ... Ground Surface Deformation Detection in Complex Landslide Area--Bobonaro, Timor-Leste ...

INTRODUCTION. According to the World Health Organization (WHO), Timor-Leste (with a population of 1.27 million) is a high-burden tuberculosis (TB) Southeast Asian country, with an incidence rate of 498 per 100 000, which is the sixth highest in the world; in contrast, the highest incidence is in Lesotho (665 per 100 000), followed by South Africa (567 ...
