

Energy Storage Demonstration Project Application Platform

What is the energy storage demonstration and pilot grant program?

The Energy Storage Demonstration and Pilot Grant Program is designed to enter into agreements to carry out 3 energy storage system demonstration projects. Technology Developers, Industry, State and Local Governments, Tribal Organizations, Community Based Organizations, National Laboratories, Universities, and Utilities.

What are energy storage applications?

More specifically, energy storage applications as a concept aim to provide technologies that convert energy into storable forms. It also balances energy consumption with production by storing excess energy for long and/or short periods

What is the energy storage project?

This is a current on-going project of a power plant construction that allows the energy storage by pumping water from a low-level reservoir to a high-level reservoir. The height difference between the two reservoirs is 574 meters. This environmentally friendly plant complements the unique landscape of the North of Israel.
