

What is a warranty on a battery?

All of our batteries carry a standard limited one-year warranty from date of delivery against defects in workmanship and/or materials unless stated otherwise. However batteries can fail for reasons not covered by warranty. Some of these are as follows:

Can a gel battery be opened?

Once sealed AGM and GEL batteries should never be opened, and never require any replenishment of fluid. Further to this the warranty does not cover Failure resulting from the use of any fluids other than distilled or deionised water. Incorrect application is one of the leading causes of premature failure.

What is continental battery warranty?

Continental Battery warranty is as follows: free replacement only to the original purchaser of the battery. Must have proof of purchase. Continental date label should be marked at time of purchase. If label is not marked, battery factory date code will be used for warranty determination.

How do I know if a battery has a warranty?

Must have proof of purchase. Continental date label should be marked at time of purchase. If label is not marked, battery factory date code will be used for warranty determination. All batteries should be properly charged and tested before submission for warranty claim. Discharged batteries or batteries outside of warranty date code limits.

Does CBS offer a warranty on batteries?

This Limited Warranty only applies to batteries purchased from authorized CBS Battery retailers. CBS is not responsible for and will not be bound by any additional warranties retailers provide. It does not authorize anyone to make or assume any obligation or liability concerning its batteries.

Does CBS offer a warranty on SLI batteries?

Example: Standard SLI batteries that are used in cycling applications. This Limited Warranty only applies to batteries purchased from authorized CBS Battery retailers. CBS is not responsible for and will not be bound by any additional warranties retailers provide.
