Yeah, I've heard of Trinity Solar, but I'm not so sure about them being legit. You might wanna do some more research or get some recommendations from folks who've actually gone solar with them. Personally, when I was looking for a solar provider, I used this website to compare prices and features from reputable companies.

Solar power works by converting energy from the sun into power. There are two forms of energy generated from the sun for our use - electricity and heat. Solar is an important part of NESO's ambition to run the grid carbon zero by 2025. But how does solar power work, how much does the UK produce and what happens to solar on a cloudy day?
