Why are car batteries so expensive?

Many car owners are surprised by the high cost of car batteries. Several factors contribute to their high cost. One major factor is the quality of materials used in manufacturing these batteries. High-quality materials ensure that they have a longer lifespan and are more reliable than cheaper alternatives.

Should I pay for a new car battery?

Yes, when you pay for a new car battery, you'll also need to pay for the mechanic's skills and time. However, labour costs are usually included in the overall garage quote. So, you shouldn't be hit with an extra fee after the job. If in doubt, check with your mechanic first.

How long does a car battery last?

Every car needs its battery replaced at some point. Good quality batteries should last four to five years but many only manage two. Knowing the cost in advance can help you budget for your replacement. This page includes: Do I need a new battery? How much does a new battery cost? Do I need a new battery?

Should you sell your car battery?

However, the reality is, a poorly maintained or faulty battery can negatively impact your car's performance way before that stage. A flat or faulty battery can cause your car to fail its MOT and reduce its market value. Therefore, your car battery shouldn't be an afterthought, especially if you're wondering if you should sell your car.
