It also works on: UV-82 UV-82X UV-82C Replaces your radios stock battery, safe and of good storage BaoFeng, BTECH BL-5L 3800mAh Li-ion Battery Pack, High Capacity Extended Battery for UV-5X3, BF-F8HP, and UV-5R Radios (BL-5 BaoFeng Battery Series) .

Does Baofeng bl-5l have an extended battery?

Cosa chiedere di più? Shop BaoFeng BL-5L 3800mAh Extended Battery Compatible with UV-5R UV-5RTP UV-5R Plus BF-F8HP, BF-F9 Two Way Radio Walkie Talkie. Free delivery and returns on eligible orders.

What is a Baofeng extended battery?

A Baofeng extended battery (authentic model linked below) for mission critical operations. Simply put, a high capacity extended battery could make all the difference in some situations. When radio communications might be most important, the last thing you want is a fading battery pack. Especially when recharge may not be timely, or possible.

What is the capacity of Baofeng batteries?

Please, be alert: sellers at eBay, AliExpress and other tend to overstate significantly the capacity of Baofeng batteries, market them as 4800mAh, 8000mAh, and even more. Do not let them fool you. The real capacity of Baofeng batteries is usually 1400mAh-1800mAh and does not exceed 2200mAh, maximum 2400mAh for new Baofeng radio models like UV-82.

How to charge Baofeng battery?

While we need 8.2V and 0.5A for Baofeng's battery. Set the charging current: 500mA charging current may be configured by using the stock resistors: unsolder both R100 resistors and solder them in sequence like a top-roof as shown at the picture. That would make the value of 0.2 Ohm setting the desired 500 mA current.

Do Baofeng bf-f8hp radios have a rechargeable battery?

I own six Baofeng BF-F8HP radios. They each came with a 7.4 volt /2100 mAh Li-ion rechargeable battery (Model BL-5). A pair of these are used every day here at the household for comms between Mrs. J and myself. 99% of the time they're both simply receiving. Note it's the transmit time which depletes the batteries much quicker!

The lithium-ion (Li-ion) battery is the predominant commercial form of rechargeable battery, widely used in portable electronics and electrified transportation. The rechargeable battery was invented in 1859 with a lead-acid ...
