

How do I install a solar light?

When the sun comes up, the batteries are recharged. Drive a foundation stake into the ground and slip on the post that comes with each solar fixture. Add the light component on top. They do not require wires, timers, or switches--although they do need to be activated once after you install them.

How to wire a solar panel?

Solar panel wiring: Pay attention to not reversing the positive and negative poles, and wrap them with insulating tape after connecting. Use rustproof screws to fix the solar panel to the lamp post, and pay attention to the orientation of the solar panel towards the sun.

How do you connect a solar panel to a lamp head?

Connect the lamp head to the controller. Connect the battery to the controller. Connect the solar panel to the controller. If the lamp head lights up when connected to the battery, and goes out when the solar panel is connected, it means that the wiring is correct and all components are functioning properly.

How do I choose a solar light installation site?

Ensure your solar light installation site is free of obstructions from access to the sun. Also, you'll want to ensure there aren't foreign light sources that can interfere with the panel's light sensor. Keep the pole away from heat sources and ensure it's on level, solid ground (we can accommodate if the soil isn't the most sturdy).

How to install solar panels?

Affix the mounting bracket to the solar panels with bolts and nuts. Connect the cables from the panels to the cables coming from the pole. Ensure the waterproof connectors are connected securely. Use a multimeter to test the panel voltage. This test must be done during the day. The voltage output of the panel must be around 20V (per panel).

Where should solar lights be placed?

Place the solar lighting devices in a position in which they get full sun exposure--or at least as much as possible during the day. Do not be fooled into thinking you have the ideal spot because the lights are in full sun at noon. Consider where shadows from trees and your house will fall as the day progresses.
