

# How to repair the exhaust hood capacitor if it is broken

How do you troubleshoot a hood fan?

If you're confident that you can troubleshoot the problem yourself, follow these steps: Unplug the range hood and check the wire harness connections between the control and the fan motor. Reconnect any loose wires and repair any damaged wires.

How do you fix air suction on a range hood?

Follow these DIY troubleshooting steps to resolve an air suction problem with your range hood: If your range hood exhausts some air to the outside of your home, check the condition of the grease filters. Wash or replace the grease filters if dirty. Check the air damper on the vent duct cap attached to the outside of your house.

How do you repair a vent hood Control Board?

Take your time to create a controlled environment that minimizes risk. Here's the step-by-step breakdown for repairing the control board: Remove the vent hood control board from the appliance: Disconnect the appliance from power, then carefully unscrew and remove the control board from its casing.

Can a clogged filter damage a range hood?

A clogged filter prevents airflow through the vent system and places undue strain on the fan motor. Grease splatters left on surfaces of the range hood could, over time, cause damage to the finish. Sears Home Services has been helping American home owners for decades with their appliance repair needs.

Why is my range hood fan not working?

When the blower fan doesn't even turn on but the lights work, a failed electronic control board, faulty user interface, bad fan switch, wiring failure or failed fan motor can keep a range hood fan from running. If you're confident that you can troubleshoot the problem yourself, follow these steps:

How do I fix a light problem with my range hood?

Follow these DIY troubleshooting steps to resolve lighting problems with your range hood: Unplug the range hood and check the wire harness connections between the light sockets and the control board or light switch. Reconnect any loose wires and repair any broken wires.
