Should I use a battery with solar panels?

It's always better to use a battery with solar panels, as you can save hundreds of pounds per year, cut your carbon footprint, and lessen the impact of electricity price rises. For more information, check out our guide to home battery storage without solar in the UK. Can you add a solar battery to an existing solar panel system?

Are solar batteries safe?

In general, solar batteries are very safe. Lithium-ion, salt water, and lead acid batteries are the main types of solar battery systems available and are all safe to pair with a home solar system. These three battery categories have their own advantages and disadvantages, but all share the distinction of being a safe home storage option.

Is it worth getting a solar battery with solar panels?

Getting a solar battery with solar panels is worth it to maximize your panels' electricity. However, it might not be so worth it if you're purely looking for financial benefit, and you'll need two within the typical lifespan of your solar panel system. That means a typical break-even point of around 24 years

Should I install a solar PV battery at the same time?

Batteries installed at the same time as solar panels have always been subject to 0% VAT. Cons Currently pricey, so payback time may be long. If you have an old feed-in tariff (FIT) contract, a DC system could reduce your payments. Likely to need replacing during the lifetime of a solar PV system.

Should you use home batteries to store solar energy?

If you have solar PV panels, or are planning to install them, then using home batteries to store electricity you've generated will help you to maximise the amount of renewable energy you use. Storing your solar energy will reduce how much electricity you use from the grid, and cut your energy bills.

Are solar batteries eco-friendly?

However, solar batteries are a great way of maximising the electricity generated by your solar panels, and reducing your reliance on the national grid, which does make it an environmentally-friendly addition to your home.
