

What is the market size of lead acid battery market?

Lead Acid Battery Market: Automotive Lead Acid Battery Market: Industrial Battery Charger Market: Based on product type, the flooded battery segment is projected to acquire a value share of 48.30% in 2024. Top factors that are propelling the segment's growth are:

Why is the lead acid battery market growing?

The market is estimated to witness growth owing to the growing adoption of lead acid batteries in automobiles and Uninterruptible Power Source (UPS) along with some developments in the manufacturing methods. The increasing demand for lead acid batteries in off-grid power generation is expected to boost the market size.

How big is the lead acid battery market in 2023?

The lead acid battery market in 2023 was valued at USD 95.9 billion and is estimated to grow at 3.1% CAGR by 2034 owing to increasing demand for uninterrupted power supply.

How will China's lead acid battery market grow in 2024?

Robust modernization in China and increasing investments in the power utility and automotive industries are expected to propel growth in the lead acid battery market. The France lead acid battery industry is estimated to register a CAGR of 5.90% from 2024 to 2034.

What are the key characteristics of the lead acid battery market?

Mergers & acquisitions and joint ventures are key characteristics of the market players, to increase their market presence. The industry is highly competitive with participants involved in continuous product innovation and R&D. Some prominent players in the global lead acid battery market include:

How is the lead acid battery market segmented?

Based on sales channel, the lead acid battery market is segmented as OEM and aftermarket. The aftermarket sales channel market holds a share of over 75% in 2023, attributed to the broad applicability of aftermarket products in diverse areas like motor vehicles, automobiles, and UPS systems.
