I am in the middle of purchasing what I need for a lithium battery upgrade as well as solar installation. I am a little lost in the weeds and I am hoping for clear advice when it comes to selecting the proper wire size, fuse size and battery shut off rating for my installation. I'll list my specs below and hopefully we can go from there.

Lithium cells, modules and batteries Made in Italy from green and sustainable materials and in vertical production. From the active material (Lithium - Iron - ...

Purchasing lithium batteries directly from manufacturers offers numerous benefits for businesses, from cost savings and customized solutions to stronger quality control. By working closely with a lithium battery manufacturer, companies can ensure they're receiving products that meet specific standards and requirements, which is essential in ...
