

What is the global lithium-ion battery market size?

The global lithium-ion battery market size was estimated at USD 54.4 billion in 2023 and is projected to register a compound annual growth rate (CAGR) of 20.3% from 2024 to 2030. Automotive sector is expected to witness significant growth owing to the low cost of lithium-ion batteries.

Why is the lithium-ion battery market growing in Asia Pacific?

The growth of the lithium-ion battery market in Asia Pacific can be attributed to the growing demand for them in the EV and consumer electronics sectors. Lithium-ion batteries are revolutionizing the energy storage landscape, powering a wide range of applications from portable electronics to electric vehicles.

Which companies develop lithium ion batteries?

Top Li-ion battery producers such as BYD and CATL invest heavily in developing Sodium-ion batteries. R&D activities are also ongoing to develop advanced Li-ion battery chemistries such as Lithium-silicon and Lithium-Sulfur.

Which country has the largest Li-ion battery market in 2023?

Asia Pacific held the largest market share of over 47.0% in 2023. The market in Europe is expected to witness steady growth over the forecast period owing to the increasing use of li-ion batteries in various sectors including medical, aerospace & defense, automotive, energy storage, and data communication & telecom.

Which countries are leading the lithium-ion battery manufacturing market?

China dominates the lithium-ion battery manufacturing market; other Asian countries, such as India, Indonesia, and Thailand, are also entering this race. For instance, leading Indian companies like Reliance Industries, Amara Raja, Tata Group, and Exide Industries are investing billions in setting up gigafactories across India.

Which countries have the highest demand for Li-ion batteries?

Germany is the world's leading market for energy storage systems as well as the development of renewable energies. Rapidly growing market for electric vehicles in Asia Pacific countries, such as India and China, is one of the major factors that is positively influencing the demand for Li-ion batteries.

components and battery types. Lithium-ion battery markets are set to grow fast. Although lead-acid batteries still dominate, lithium-ion batteries accounted for 17% (78 GWh) by energy capacity in 2016. Forecasts vary widely but generally markets are set to grow fast with estimates averaging around 450 GWh by 2020 and 7,500 GWh by 2050.

10 ????&#0183; Owing to these challenges, the lithium market observes a rise in efforts toward recycling and secondary supply for lithium-ion batteries. In fact, a report by the World Economic Forum states that the

global recycling industry for lithium-ion batteries could reach \$13 billion by 2030, thereby easing pressure on primary mining sources.

Industry Insights [223+ Pages Report] According to the report published by Facts and Factors, the global lithium-ion battery market size was worth around USD 49.67 billion in 2021 and is predicted to grow to around USD 165.65 billion by ...

The Li-ion battery market is set to grow with a CAGR of 20.3 % by 2030, driven by demand for EVs and advancements in battery technology.

The Lithium-ion Battery Market Report is segmented on the basis of the following: By Product. Lithium Cobalt Oxide (LCO) Lithium Iron Phosphate (LFP) Lithium Nickel Cobalt Aluminum Oxide (NCA) ... +1 123 456 4562 (International) ...

5 Global Lithium-Ion Battery Market 6 Market Share Analysis 6.1 By Components ... ResearchAndMarkets is the world's leading source for international market research reports and market data. We ...

2 ???&#0183; NEWARK, Del, Feb. 03, 2025 (GLOBE NEWSWIRE) -- The global lithium ion battery separator market is estimated to reach USD at USD 4.6 billion in 2025 and is expected to increase in CAGR of 16.5% during the period of forecast, reaching USD 20.9 billion by 2035. This growth is inspired by increasing adoption of electric vehicles. (EVS), renewable energy storage ...

A report by the International Energy Agency (IEA) highlighted that since 2017, developing the EU's domestic lithium-ion battery industry to reduce import dependence has been a key goal for the European Commission and some national governments. However, surging investment enthusiasm led to a significant increase in EU production, from 2GWh in ...

2 ???&#0183; This report analyzes the increasing demand of lithium-ion battery in electric vehicles and energy stationary storage systems and forecasts global supply from 2023 to 2033 based ...

Lithium-Ion Battery Market. Dublin, Nov. 28, 2024 (GLOBE NEWSWIRE) -- The &quot;Lithium-Ion Battery Market Report Forecast by Components, Product Type, Application, Countries and Company Analysis 2024 ...

The global lithium-ion battery market size was estimated at USD 54.4 billion in 2023 and is projected to register a compound annual growth rate (CAGR) of 20.3% from 2024 to 2030.

5 Global Lithium-Ion Battery Market. 6 Market Share Analysis. 6.1 By Components ... ResearchAndMarkets is the world's leading source for international market research reports and market data ...

Market Size & Trends. The North America lithium-ion battery market size was estimated at USD 14.8 billion

in 2023 and projected to grow at a CAGR of 20.9% from 2024 to 2030. Rechargeable batteries are being used more frequently as ...

The lithium-ion battery market, valued at \$54.4 billion in 2023, is experiencing rapid growth, with projections indicating a surge to \$182.5 billion by 2030 and further expansion to \$187.1 billion by 2032. ... Strong presence in ...

Global Lithium-ion Battery Dispersant Market is accounted for \$1.02 billion in 2024 and is expected to reach \$1.84 billion by 2030 growing at a CAGR of 15.4% during the forecast period 2024-2030 ... (Drivers, Restraints, Opportunities and Challenges) are obtained from scientific journals, market related national & international associations and ...

In its latest EV outlook, BloombergNEF updated its battery chemistry forecasts, which now includes sodium-ion batteries accounting for 3% of passenger car market battery demand in 2035 and 30% of ...
