Surprise incentives and rebates. Solar incentives and rebates can cut the cost of installing solar in Surprise by thousands of dollars. The most significant incentive is the 30% federal solar tax credit, available to any taxpayer in the country when they purchase solar panels or battery storage. Some cities, counties, states and utility companies offer additional solar incentives, saving ...

If anything, it MIGHT (and I must again stress the unlikelihood here) be the diodes in the back of the panels that might be affected. But those are (usually) only a few dollars to replace, worst case scenario. I've run multi-band HF dipoles near my solar panels for nearly 20 years now using 100 watts or less and my panels are still working fine.

Microinverters - By installing a microinverter on each solar panel, any shading issues from nearby trees will be localised, and the overall energy production of the solar panel ...
