

Is great power a BNEF Tier 1 energy storage manufacturer?

On July 16th, BNEF released the "BNEF Energy Storage Tier 1 List 3Q 2024", with Great Power ranked as the BNEF Tier 1 energy storage manufacturer. This inclusion in the list signifies the global market's high recognition of Great Power's global energy storage projects, financing capabilities, and brand value.

Which battery energy storage systems are Tier 1?

The Tier 1 ranking of battery energy storage system (BESS) providers was released earlier this month. While its names have not been disclosed publicly, Energy-Storage.news can reveal that Fluence, Tesla, Powin, Wärtsilä; and Hithium are there, while other major players like Sungrow, Nidec, BYD, Samsung SDI and LG Energy Solution are likely to be too.

Does BNEF have a Tier 1 energy storage manufacturer list?

However, BNEF's Tier 1 energy storage manufacturer list has only been published since 2024, and its credibility is still being further enhanced. For example, after the release of the first-quarter list, many domestic enterprises were not included, and there were also some well-known foreign companies that were absent such as 'Deye inverter'.

What makes a Tier 1 battery manufacturer?

On the other hand, one of the characteristics of a tier 1 manufacturer is transparency and good data availability. Manufacturers can help us tier them accurately by sending us (at batterytier1@bloomberg.net) data on the projects they have provided systems for, and the financing used to support these projects.

What are the tiering criteria for energy storage?

From 1Q 2025, an energy storage brand to be listed as tier 1 must have supplied products to at least three different third-party buyers in the last two years. We may change these criteria further. In addition, the tiering team reserves the right to reject projects which are demonstration, not fully commercial.

Who makes the best lithium-ion battery cells?

Benchmark Mineral Intelligence has the most notable Tier (1-3) list of lithium-ion battery cell manufacturers, while BNEF already has Tier 1 list for PV suppliers and Tier lists also exist for inverter brands.

BloombergNEF's tiering system for PV module makers is based on bankability, but should never replace a proper due diligence process in product selection. This document lists manufacturers meeting the criteria as of 4Q 2024.
