

What are the battery requirements?

Lithium battery requirements: o do not short, recharge, heat above 85°C, disassemble or expose contents to water o use only the 1770-XYC battery in the processor. DO NOT use any other type or size of battery.

Can I use a battery that is not approved?

Don't use a battery that hasn't been approved by the manufacturer, as this may damage the phone and/or battery. Battery life depends on the network, signal strength, temperature, features, and accessories used. It's common for batteries to be warm from use or charging.

How to reinstall battery driver Windows 10?

Reset Battery Driver 1. Press `Win + X` and select Device Manager. 2. Expand Batteries. 3. Right-click on Microsoft ACPI-Compliant Control Method Battery and choose Uninstall device. 4. Restart your Surface. The driver will reinstall automatically.
