

What are battery packs?

Battery packs are constructed from two or more individual cells or batteries. There are two basic types of battery packs: primary and secondary or rechargeable. Primary batteries are disposable, non-rechargeable devices. They must be replaced once their energy supply is depleted.

What can you do with a battery pack?

They're housed in a convenient and protective packaging that allows you to individually remove the batteries without worrying about losing others. Power your watches, calculators, PDAs, remote controls, game consoles, LED lights, garage door openers, smoke detectors, tire pressure monitoring system, LED reading glasses and so much more.
