

What kind of battery does a buildcrafts onepak use?

Powered by BuildCrafts ONEPAK Battery System, this tool operates efficiently with an 18V 2Ah rechargeable battery, eliminating the hassle of tangled cords and short cables. Can be used with a string cutter for use around smaller areas or where you are cutting up against a delicate edge that could be damaged.

How long does a cordless grass trimmer battery last?

However, how long the battery lasts for depends on its size and power. Some cordless grass trimmers will have a battery that only lasts 20 minutes, but others (normally with a battery of 4 Ah or more) can last around 30 - 40 minutes depending on the job.

What is a single string trimmer?

A single string trimmer, it's not quite as powerful as a heavy duty double string version, but it is strong enough to trim heavy grasses and weeds without complaint. It also boasts an auto line feed system, which means you don't waste so much string like you would on an older style "bump" feed trimmer.

Which Jigsaw/sabre saw uses the same battery system?

Uses the same ONEPAK battery system. Contains: The new BuildCraft ONEPAK cordless jigsaw/sabre saw can change functions at the push of a button, it quickly converts from a jigsaw to a sabre saw, with all the benefits of both tools, such as bevel cut, pendulum cutting and easy-swap blades.
