

How are the materials and chemicals used in our aluminum electrolytic capacitors adapted?

Materials and chemicals used in our aluminum electrolytic capacitors are continuously adapted in compliance with the TDK Electronics Corporate Environmental Policy and the latest EU regulations and guidelines such as RoHS, REACH/SVHC, GADSL, and ELV. MDS (Material Data Sheets) are available on our website for all types listed in the data book.

How to handle aluminum electrolytic capacitors?

Nevertheless, the following rules should be observed when handling aluminum electrolytic capacitors: No electrolyte should come into contact with eyes or skin. If electrolyte does come into contact with the skin, wash the affected areas immediately with running water. If the eyes are affected, rinse them for 10 minutes with plenty of water.

Where can I buy aluminum electrolytic capacitor - SMD?

Pricing (USD) Filter the results in the table by unit price based on your quantity. Pricing (USD) Filter the results in the table by unit price based on your quantity. Aluminum Electrolytic Capacitors - SMD are available at Mouser Electronics. Mouser offers inventory, pricing, & datasheets for Aluminum Electrolytic Capacitors - SMD.

What should I avoid when soldering aluminum electrolytic capacitors?

Do not exceed the specified time or temperature limits during soldering. Do not allow halogenated hydrocarbons to come into contact with aluminum electrolytic capacitors. Do not exceed the upper category temperature. Avoid overload of the capacitors. Make periodic inspections of the capacitors.

How do you protect aluminum electrolytic capacitors from halogenated hydrocarbons?

Do not allow halogenated hydrocarbons to come into contact with aluminum electrolytic capacitors. Do not exceed the upper category temperature. Avoid overload of the capacitors. Make periodic inspections of the capacitors. Before the inspection, make sure that the power supply is turned off and carefully discharge the capacitors.

Are MDS available for aluminum electrolytic capacitors?

MDS for customer specific capacitors are available upon request. MSDS (Material Safety Data Sheets) are available for our electrolytes upon request. Nevertheless, the following rules should be observed when handling aluminum electrolytic capacitors: No electrolyte should come into contact with eyes or skin.
