The 3D virtual exhibition hall is a digital exhibition hall built by computer graphics technology, and it is a 3D interactive experience mode. Based on the traditional exhibition hall, the 3D virtual technology is used to transplant the exhibition hall and

There aren't too many virtual realities in Shanghai but I can now point out at least one. In the middle of People's Square inside the Urban Planning Exhibition Hall lies a cocoon showing its insides for most of the work week hours and during the day on the weekends. Given, it's more like standing in the middle of a full screen-covered sphere, but that's basically ...
