The SP100 solar powered 4G router provides mobile broadband up to 300Mbps to remote locations without power or internet connectivity and is perfect solution for building sites, farms and parks.

The outdoor Wi-Fi 4G router features 4G mobile modem to connect mobile networks. A 12Volt solar battery pack supports 2-days working. Offers Wi-Fi and LAN, the outdoor router comes with a battery management system where battery recharging can be done from solar panel, PoE adapter and DC power.

Re: Powering 12v router from a 12v battery bank, 12v connectors I've had a Zoom DSL modem running off a single 55A/h AGM battery through a 12V power strip for years. So far, no problem. Have the cordless phone base (occasionally) running off it too but had to add 12V DC isolator (model #SH12-670) to get rid of the hum during calls.
