

Who are Solar Energy Services?

Solar Energy Services is a company that specializes in Solar PV installations, PV Repairs/Maintenance, and PV Battery Storage. Here at Solar Energy Services, it's our goal to help you produce, manage, and use the energy you generate, so you can maximize the benefit of your renewable energy system to your lifestyle.

Who are our solar PV installers?

Our solar PV installers have accreditations and certifications with CHAS, IET, MCS, NICEIC, RECC, ISO 9001 and ISO 14001. We are fully insured for the work that we carry out, and we only work with the highest quality providers of solar PV panels including Canadian Solar, JA Solar Panels, Sharp, Panasonic, and more.

Which manufacturers have solar panels?

Manufacturers, Tappex Threads Inserts, are ready to start saving money on their electricity bills with their 94kW solar PV system. Machinery manufacturer, Sodick Europe, has expanded their renewable energy solutions with their 214kW solar panels. Car dealership, SG Petch, is making the most of the sunshine with their new solar panels.

Do you need planning permission to install solar panels?

For normal domestic properties, there is no requirement to gain planning permission, as long as the property is not a listed building or in a conservative area; and the installation sticks to the guidelines. Standalone panels can also be installed without seeking planning permission, although the size of the array is limited to 9m², and 4m tall.

Does green energy houses offer commercial solar panels?

Green Energy Houses also caters to the needs of businesses and commercial properties. Our commercial solar panel installations are designed to help you reduce energy costs and enhance your sustainability efforts.
