

What accessories do I need for a bespoke solar panel system?

Our range of solar accessories covers everything you need to create a bespoke solar panel system. Everything you require from replacement 12V low energy bulbs and holders to solar power inverters, charge controllers, UV stabilised cable and solar panel mounting brackets.

Do you offer solar light accessories?

We understand that not all applications and installations are the same and our customers often have specific needs when it comes to installing a lighting system. On that basis we offer an ever increasing range of optional solar light accessories, hardware and parts to help facilitate many of the lighting products and systems that we offer.

What solar accessories are needed?

We've got you covered for any solar related accessories you need, including Solar Regulators, Digital Wattmeters, and 8B&S Solar Panel Extension Leads & Security Locks. From Solar Regulators to Digital Wattmeters to 8B&S Solar Panel Extension Leads & Security Locks, we offer a range of accessories designed specifically for solar panels.

What are solar panel mounting accessories?

These support structures raise solar panels at appropriate angles to ensure that they receive maximum solar irradiation. Solar panel mounting accessories are those items that allow you to correctly mount solar panels and collect their energy in a proper way.
