

Where can I use solar street lighting in the UK?

With the largest selection of solar street, car park and general area lighting systems in the UK, we have lighting for all applications. Typical applications include streets, roadways, car parks, general outdoor areas, playgrounds, storage yards, footpaths, multi use games areas (MUGA), BMX pump tracks, horse riding arenas and such like.

What are solar powered street lights?

Easy to install just mechanical fixing no mains powered wires. Dragons Breath Solar powered street lights have been designed to adopt powered illumination using only the sun's energy. These provide us with the ability to design street lights and road lighting are for uses across the UK.

How do solar street lights work?

Our Sun-Lite solar street lights use LED lighting technology with solar panels that absorb enough energy, no matter the season. Each solar panel is made up of multiple photovoltaic cells. The energy generation process starts with these cells converting solar energy from natural sunlight into electrical energy.

Are solar street lights a good choice?

Our solar street lights use the latest LED lighting technologies to guarantee a longer lifespan for your road lighting. They also operate well in cold temperatures, making them the perfect choice for outdoor lighting. Also, unlike traditional lighting, LEDs emit almost no heat, making them safer to change and more energy efficient.

Are solar street lights energy independent?

Become energy independent today with Sun-Lite. Our solar street lights use the latest LED lighting technologies to guarantee a longer lifespan for your road lighting. They also operate well in cold temperatures, making them the perfect choice for outdoor lighting.

Do you offer solar light accessories?

We understand that not all applications and installations are the same and our customers often have specific needs when it comes to installing a lighting system. On that basis we offer an ever increasing range of optional solar light accessories, hardware and parts to help facilitate many of the lighting products and systems that we offer.
