

The battery can't find a power source in the room

Where can I find a battery?

A battery can spawn under the front of the table. When in room A, the battery will be just in front of the lockers, that is located directly right of the door to the next room. The battery sits right on the where the cursor is pointing at. This room is called the "Three-Locker Room" as it has three lockers.

How do I find more batteries?

When searching for more Batteries, be sure to keep walking through the room as you look into the Batteryspawn points for each room. Keep in mind, also, that Batteries will always spawn in the same place for each Room Type. It's recommended to use the Flashlight instead of the Gummy Flashlight since sound is very important in the game.

Where is the battery located?

The battery sits right on the where the cursor is pointing at. This room is called the "Three-Locker Room" as it has three lockers. The room is shaped like an "L", and Batteries can spawn in the corner, next to the door, where that small, gray cube can be seen. This empty room is called the "Two-Locker Room".

How many batteries can a room hold?

All room names come from the wiki. [Computer Only] Each battery that you collect counts up to a number close to your battery indicator, and is automatically used when one battery runs out. There's currently no known cap to how many batteries can be held at once.

How do I know if a battery has spawned in a room?

You can tell if a battery has generated in a room by checking Primitives in the Ctrl +F1 menu located on the left side menu. Each room adds a certain amount of numbers to the last digit/ones-digit of Primitives. A battery spawned in the room if 3 more digits are added stacking with the number to each room generated.

Do batteries spawn a lot?

Batteries appear to be a small item being black for the most part with the top being orange with a small white part at the top. Batteries do not spawn often, so conserving your Flashlight power is a must if you want to make it far in the game. This is because the more doors you open, the darker it gets.

4-Verify the Microsoft AC Adapter and Microsoft ACPI-Compliant Control Method Battery devices are displayed. 5-Check the notification area on the Taskbar and see if the battery icon is now visible. 6-If the battery icon is still greyed out, proceed to the next section. Disable and Re-enable Microsoft Drivers 1-Open the Windows Device Manager.
