

What is the capacity of Mogadishu solar power plant?

The Mogadishu solar photovoltaic power plant has a capacity of 8 MWp. The Beco company has the ambition to increase the plant's capacity to 100 MWp, with an investment of 40 million dollars. Pending the expansion of the solar power plant by 2022, the utility will continue to rely on its power generators to supply the Somali capital.

Will a solar power plant reduce electricity costs in Mogadishu?

Beco, the company that provides the public electricity service in the city of Mogadishu, has recently installed a photovoltaic solar power plant there. The objective is to reduce electricity costs in the Somali capital. The company plans to increase the capacity of the solar power plant to 100 MWp in the coming years.

Will a solar power plant in Somalia be 100 MWp?

The company plans to increase the capacity of the solar power plant to 100 MWp in the coming years. A photovoltaic solar power plant is now operational in Mogadishu, the capital of Somalia. The plant was recently commissioned by Beco, Somalia's main electricity supplier.

Can solar power be used in Somalia?

A case study on a solar power microgrid system in Bacadweyene, Somalia, is also presented. The research provides valuable information on the status of the utilization and potential of solar energy in Somalia and aligns with the NDP 9th.

How much power does Mogadishu have?

Overall, the combined capacity of Mogadishu Power Supply and Blue-sky Energy was 30 MW and 18 MW of diesel engines, respectively. Although many solar projects have been implemented in Somalia, the cost of electricity remains high.

How many people in Mogadishu have no electricity?

According to the World Bank's 2018 report, more than 64% of the population has no access to electricity. Beco, the company that provides the public electricity service in the city of Mogadishu, has recently installed a photovoltaic solar power plant there.

Mogadishu, one of the places with solar energy potential in Somalia, is geolocated at 2.05S latitude, 45.34E longitude, and 65m elevation above sea level (SAM-V.2022). Somalia ...
