

Which type of dielectric is used in Yesha DC capacitors?

The dielectric of YESHA DC Capacitors consists of all Polypropylene film or Mixed Dielectric (PP +Paper) or all Paper depending on rating,application,etc. However,in Indian conditions,it is noticed that DC capacitors with all paper dielectric is still,more economical than all polypropylene dielectric.

What is a capacitor used for?

Capacitors play a key role in almost all electrical and electronic equipment and electrotechnical installations. These versatile components store electric charges and smooth or buffer currents and voltages. They are used to filter and suppress HF interference as well as to decouple signals in telecommunications applications.

What are Yesha DC capacitors made of?

Besides the standard YESHA designs Capacitors to suit any specific requirement. The dielectric of YESHA DC Capacitors consists of all Polypropylene film or Mixed Dielectric (PP +Paper) or all Paper depending on rating,application,etc.

What are aluminium electrolytic capacitors?

Aluminium electrolytic capacitors offer very high capacitance values per unit volume over a wide range of rated voltages. They are based on aluminium films whose surface has been enlarged by an etching process.

What are Tantalum capacitors used for?

Tantalum Capacitors are used in various electronic applications for buffering and filtering which are having a focus on high reliability,long life time,high environmental temperatures or smaller size,as automotive electronic or power supplies,mobile phones,3g/4G modems,laptop PCs or medical equipment,to name just a few.

Which capacitor has the highest capacitance to volume ratio?

Tantalum capacitors have the highest capacitance to volume ratio of all capacitors due to their specific monolithic construction and as well as mechanically very robust component structure. They are available in various packages as chip,molded SMD or leaded dipped or leaded axial.

Find here DC Capacitors, Direct Current Capacitors manufacturers, suppliers & exporters in India. Get contact details & address of companies manufacturing and supplying DC Capacitors, ...

EMI Filter Supplier, Feed Through Capacitor, Solder-in EMI Filter Manufacturers/ Suppliers - Lca Micronics ... Since our foundation, we have been specializing in researching of different types ...
